“Our son loves attending TNS. He shares songs, prayers, and activities at home. We are also pleased with the use of Everyday Math and Visual Phonics programs. He has taught his younger brother the signs for the letters. TNS is a wonderful program that focuses on the whole child and prepares children for kindergarten.”

GOALS

Trinity Nursery School maintains a maximum of 10 children per class. Teacher assistants are available daily to each classroom to reduce the staff/child ratio and enhance the children’s experience. Trinity’s music specialist visits each class weekly to sing and worship with the children. The pastors and other church staff members support the TNS teaching staff throughout the year.
